Claims 2-7 have been amended. Claim 1 has been canceled. Thus, claims 14-17 have been added. Overall, claims 2-17 are pending in this application.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 14 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Sawai et al. Sawai (Patent Number 4,886,435).

Regarding claim 14, as shown in Figs. 1-5, Sawai discloses compressor assembly comprising: a housing having an inlet opening (6); a stationary/orbiting scroll members ; an oil sump (24) disposed in the housing; a shaft (10); a motor (9); a crankcase (14) including a shield portion (14d) having an aperture (14g) substantially aligned with the inlet opening (6) and extending circumferentially about the shaft (10) through an arc of at least 180 degrees; and a baffle member (27) secured to the crankcase (4) over the aperture the positioned proximate the inlet opening (6).

Regarding claim 16, as shown in Figs. 1-5, Sawai discloses compressor assembly comprising: a housing having an inlet opening (6); a stationary/orbiting scroll members ; an oil sump (24) disposed in the housing; a shaft (10); a motor (9); a crankcase (14) including a shield

portion (14d) having an aperture (14g) extending circumferentially about the shaft (10) through an arc of at least 180 degrees; and a baffle member (27) secured to the crankcase (4) and positioned proximate the inlet opening (6), at least a portion of the baffle member positioned within the aperture.

Allowable Subject Matter

2. Claims 2-13 are allowed.
3. Claims 15 and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Prior Art

The IDS (PTO-1449) filed on August 30, 2004 has been considered. An initialized copy is attached hereto.

Response to Arguments

Applicants' arguments with respect to claims 2-17 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 3748

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
